DOCKET 04-IEP-1D	
DATE	APR 27 2005
RECD.	APR 27 2005

Dear Mr. Bass:

Re: Application for Confidential Designation, Electricity Resources and Bulk Transmission Data Forms, Docket No. 04-IEP-1D

On March 30, 2005, Sempra Energy Solutions (Sempra) filed Electricity Resources and Bulk Transmission Data Forms, S-1, S-2, S-5 and the 10-year Resource Plan with the California Energy Commission (Energy Commission) for use in the 2005 Integrated Energy Policy Report proceeding.

As part of that filing, Sempra requested that the information on the forms filed be kept confidential. The information provided in the application for confidentiality is not specific enough for the Energy Commission to make a determination on your confidentiality request. Be advised that before the information contained in the forms submitted by Sempra can be designated as confidential by the Energy Commission, Sempra will need to submit a more detailed application for confidential designation (application).

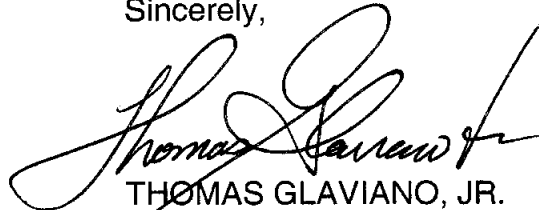

A properly filed application must be submitted to the Energy Commission's Docket Unit and shall include:

- Statements indicating what part(s) of the submitted materials need a confidential designation.
- A statement indicating the length of time the submitted materials should remain confidential and the reason for that length of time.
- A statement indicating the provisions of the Public Records Act or other applicable laws that allow the Energy Commission to deem the submitted materials as confidential, and an explanation why those provision(s) apply. For example, if the materials contain trade secrets or would result in a competitive disadvantage to Sempra if made public, please state how the competitive disadvantage would result, and the ease or difficulty with which the information could be legitimately acquired or duplicated by others.

- A declaration, under penalty of perjury, that the application is true, correct, and complete to the best of the applicant's knowledge and belief.
- A statement declaring that the materials Sempra has submitted have not been publicly released, and whether the information can be masked or aggregated and released to the public.
- Ten copies of the materials seeking the confidentiality determination.

Be assured that the materials Sempra has already submitted will be unavailable for public disclosure until Sempra's application is received and a confidentiality determination has been made by the Energy Commission's Executive Director. If we do not hear from Sempra within 14 days of this letter, however, the materials you have already submitted will be deemed public. If you have any further questions concerning this matter, please contact me at (916) 651-8893.

Sincerely,

A handwritten signature in black ink, appearing to read "Thomas Glaviano, Jr.", written in a cursive style.

THOMAS GLAVIANO, JR.
Staff Counsel
